All part numbers provide 10% tolerance on inductance

† Provide 20% tolerance on inductance

Custom designs are available to meet your specific requirements; please contact factory

**\*Add "LF" suffix for RoHS requirement. Example: DB3-331LF****Gowanda designates a component RoHS-compliant by adding "LF" (lead free) to the part number.****These LF components meet the  $\leq .1\%$  lead requirement and they are compatible with 260°C soldering processes.****NOTES:**

- Operating Temperature Range: -55°C to +125°C
- Current Rating is based on a 35°C temperature rise at an ambient temperature of 90°C
- Saturation Current is the approximate value that will cause a 10% drop in inductance as indicated in the table
- Leads tinned to within 0.062 in. of body
- Epoxy-insulated core

**PACKAGING SPECS:**

Bulk only
