

T-1, (3-mm) Round, Tri-level PCB Mount LED Indicator, G83B Series

www.ledidea.com

The G83B is a right-angle view assembly of 3 T-1 LEDs arranged in a column. This indicator array is designed to be the extension of the G78B. When used in conjunction with the G78B the two lower LEDs line up both vertically and horizontally with the two lamps in the latter. Recommended pitch is 4.4 mm(0.173") when a large number of units are placed side-by-side. That would allow intermixing 3-high and 2-high indicators on the same panel. This series can also be supplied with pinout reversed from that shown by adding "-RL" to the order code of the part number.

Specify part desired as follows:

G83B/Order Code LED1 + Order Code LED 2 + Order Code LED 3

For example: "G83B/H+Y+G" designates red LED on top, yellow LED in the middle and green LED on the bottom.
